Bus Bar Box Auto General-purpose Durable Busbar Case 300A High Current Return Box Ship Modification Bus Box Car Busbar Case

Features:

1. Modular box design, easy wiring configuration.
2. The glass fiber reinforced nylon base and shell ensure high mechanical strength and durability.
3. The box is detachable for barrier-free wiring, which reasonably accommodates the cables inside the vehicle and ship.
4. Actual Use: The middle M8 is connected to the negative pole of the device, and the M8 at both ends is connected to the negative pole of the battery; a small current is collected from each device, such as 3A, 5A, 10A, 8A, etc. I integrate a thick line to collect a large current in the range of 300A To the battery.
5. Good Function: Play a role of storage of a negative wire harness in automobiles, ships and yachts. The negative wires are gathered together to make the box storage more beautiful.

Specifications:

Name: Red Bus Bar Box 300A M8 Stud
 Color: red
 Net weight: about 364 grams
 Gross weight: about 391 grams
 Size: about 13.7*6.85*4.45cm/5.39*2.70*1.75 inch
 Packing size: about 14.5*7.5*5.4cm/5.71*2.95*2.13 inch
